Press Release – Banque Delubac & Cie – CIB Department

Banque Delubac & Cie supports the shareholders of C2S Conseil Chimie Service, a major player in air quality analysis in France, in the sale of their company to the ISPIRA Group.

The ISPIRA Group, a specialist in air quality and environmental health, has acquired C2S, a major reference in air quality analysis in France.

This acquisition enables the ISPIRA Group to:

- strengthen its know-how in all areas of air quality;
- expand its customer base;
- complete its offer on the regulatory side concerning Public Receiving Institutions and the analysis of polluted sites and soils; and
- provide an analysis service based on a large network of partner laboratories.

Based in Aix-en-Provence and Paris, C2S consists of approximately 20 employees to work with recognised public and private players. It also has COFRAC accreditations allowing it to position itself on the analysis of indoor air quality (LABREF30) and electromagnetic fields.

Thanks to this operation, the ISPIRA Group brings together more than 50 employees spread over 5 locations in France (Paris/Clichy, Lyon, Aix-en-Provence, Nantes and Toulouse) as well as in Belgium (Arlon and Brussels). The Group's consolidated turnover exceeds €6 million.

As part of this operation, Banque Delubac & Cie successfully advised and supported the shareholders of C2S in the sale of their company, from the search for potential buyers, both in France and in Europe, to the final negotiations.

About Banque Delubac & Cie

Created in 1924, Banque Delubac & Cie is an independent financial institution that offers specialised banking and financial services. With over 300 employees, it is present in France on 12 sites including the historic head office located in Ardèche. Banque Delubac & Cie has been constantly reinventing itself for nearly a century. Bold in its development strategies, it has chosen to focus on high added-value niche professions, so allowing it to stand out from general banks. It is the 1st French bank registered as a Digital Asset Service Provider. Its hallmark “Expertise and Independence” reflects its DNA: independence, proximity, specialist activities and bespoke services.

Its Corporate & Investment Bank department has been developing for 10 years advisory services for mergers and acquisitions, and financial operations for listed and unlisted companies.
